AEROSOL RANGE

Available only by download from
Stukproducts.com

Adhesives:

1/ RSG500R – STUK Professional Rapid Spray Glue

STUK Rapid Spray Glue is a heavy duty formula for fixing carpets, automotive trim, loose lay materials, laminates, roof linings, carpet tiles, and all manner of materials (excluding vinyl and most plastics) around the house, office, factory, construction site, boat, caravan, and outdoors. Available in one 500ml aerosol can, in outers of 12.

2/ ASSG400R – STUK Simply Spray Glue

For cost conscious consumers, who need only a quick squirt of adhesive, STUK offer “Simply Spray Glue” – 400ml fill can, for a smaller price. Simple. Packed 12 cans per outer. Has a similar formula to the heavy duty version, just less glue in the tin. Not for use with vinyl and most plastics.

Other products available in the “Simply” range include Gaffa Tape, PVC Electrical Tape, and coming soon: Simply Masking Tape, and Simply Packaging Tape.

3/ AVPS500R – STUK Vinyl & Plastic Spray Glue

STUK Professional Vinyl & Plastics is the adhesive needed when one substrate is vinyl or plastic. Containing a plasticiser migration resistant (PMR) formula, this adhesive will not discolour or stain vinyls and plastics. Available only as a 500ml aerosol can, packed 12 cans per outer carton.

Adhesives continued...

4/ APF400R – STUK Professional Photo-Fix

STUK Professional Photo-Fix is the ideal aerosol adhesive for mounting photographs, and other artwork, where longevity of bond and a complete lack of discolouring are essential requirements. Acid-free, this adhesive is repositionable for between 5–10 minutes, giving you ample time to position your material where you wish. After this time, the bond becomes permanent. Available as a 400ml fill aerosol can, with 12 per outer case.

5/ ARF400R – STUK Professional Re-Fix

Re-Fix. Make any note like a post it note.

STUK Re-Fix adhesive is not only a repositionable adhesive. When dry, the adhesive will not transfer from the original surface. Spray onto the reverse of a poster, wait until dry, then position on your wall. Changed your mind? Peel off – the adhesive remains on the back of the poster. Put it somewhere else. No problem. Long lasting formula for hundreds of “sticks”, and re-coat any time you wish.

Available in a 400ml aerosol can, with 12 per outer.

6/ ACAS500R – STUK Professional Contact Adhesive Spray

STUK Professional Contact adhesive. Finally, a versatile and effective contact adhesive combining the ultimate in quality with the ease of an aerosol spray. Simply spray on both surfaces, allow 30 seconds or so for the solvents to evaporate – this drives the adhesive into the pores of the materials to be bonded – and then bring together. For heavy or awkward objects, clamping may be required for the first few hours. For maximum results, give one surface a vertical spray, the other a horizontal spray. This really locks the objects together. Simply the best for bonding laminates.

Available in 500ml aerosol spray cans, 12 per outer.

Maintenance:

1/ AWL400R – STUK Professional Wicked Liquid

Wicked Liquid from STUK.

A professional maintenance spray with a multitude of uses around the home, office, garden, car, boat, caravan, construction site, in fact, everywhere! Spray it onto electrical wires to disperse water and damp, clean tar spots from cars, stop doors squeaking, spray on plant pots to dissuade slugs from climbing, remove stubborn stains, the list is virtually endless.

Available as a 400ml aerosol spray can, with 12 per outer.

2/ APO400R – STUK Professional Penetrating Oil

Loosens seized or rusted parts. Anti-corrosive properties keep rust at bay. Synthetic oil, with an excellent capillary action, allows STUK Penetrating Oil to work through the tightest of gaps. The solvents evaporate within minutes of application, leaving a waterproof load-bearing oil, providing long lasting lubrication.

A 400ml aerosol spray can, packed 12 per case.

3/ ASL200R – STUK Professional Silicone Lubricant with PTFE

STUK Professional Silicone Lubricant with added PTFE is a multi-purpose lubricant with applications across all areas of leisure and work life. It lubricates moving parts, acts as an exceptional release agent, eliminates squeaks, eases the installation of pipes, O rings, gaskets and seals, and much, much more. The PTFE additive gives fantastic long life performance.

Available in a 200ml aerosol spray can for ease of use, with 12 cans packed in each outer carton.

Cleaning:

1/ ASSR200R – STUK Professional Sticky Stuff Remover

For removing adhesive and sticky deposits. Sweets, shop labels, manufacturers product labels, overspray of adhesive – this product will clean up. Returns adhesive to its liquid state, allowing for easy removal.

A 200ml aerosol can complete with straw for intricate work. 12 cans per transit carton.

2/ AGR400R – STUK Professional Graffiti Remover

STUK Professional Graffiti Remover has a gel formula. This allows the product to remain in position on vertical surfaces, where graffiti is often found. Clinging tenaciously to the graffiti paint, the unique formula slowly liquidises paint, allowing for easy removal with a pressure washer, or regular hose and a scrubbing brush.

400ml aerosol can, packed 12 per carton.

3/ ACGR200R – STUK Professional Chewing Gum Remover

Satisfactory removal of chewing gum from most surfaces, including shoes. This product works by freezing the gum (or other sticky substance) down to about -80 degrees C, allowing sticky deposits to be scraped off.

An easy solution to one of life's less pleasant, sticky situations!

Sold in a 200ml fill oversize can (allowing for gas expansion), packed one dozen tins to a transit carton.

Line Marking Paint:

1/ ASL750B – STUK Professional SprayLine Marking Paint

Available in 5 different colours:

ASL750B – Blue

ASL750G – Green

ASL750R – Red

ASL750W – White

ASL750Y – Yellow

Excellent for marking out sports pitches, highlighting ground repairs on golf courses, caravan parks, and many other uses.
